Our promise to our residents and their families is to treat your loved one as though they are an extension of our own families, providing kind, compassionate care regardless of what care level is needed.

WHO WE ARE

Based in Dallas, Cornerstone Senior Living owns and operates eight senior living communities located in Arkansas, Tennessee and Texas. While our communities may have different names, our staff shares the same passion for providing the highest quality of care. We help potential residents and their families navigate this process by listening carefully to understand and assess their needs, and openly discuss if our community is the right place for them.

Based on our discussion and assessment, we customize our senior living solution so both residents and families can have the peace of mind knowing their new home will provide the environment to enjoy a happy, healthy and fulfilling life.

OUR PARENT COMPANY

Cornerstone Healthcare Group, based in Dallas, was founded in 1990, and operates in three divisions: Specialty Care Hospitals, Senior Living and Behavioral Health.

We pride ourselves on our quality of care, responsive service and commitment to excellence. We treat each patient and resident like we would a member of our own family, and measure our success by the direct impact we have on improving the quality of life for our patients and residents.
