CORNERSTONE  
SENIOR LIVING

“I’m looking for a place  
that feels like **home.**”

## CARE LEVELS

Within our community, we provide a wide range of services for our residents who can live independently, but also require some assistance. Our goal is support you with just the right level of care for you to flourish within our community designed to maximize your autonomy, dignity and privacy, as well as emphasize family and community involvement

### Assisted Living

Once a loved one is unable to live independently, caregivers have to make a decision on what type of care to turn to next. For seniors who value their independence, but still require assistance with some daily activities, Assisted Living is an ideal solution. Stonehaven Assisted Living is the most popular long-term care option for seniors. However, not all long-term care facilities offer services and benefits that caters to the specific needs of each individual in the community. Stonehaven’s Assisted Living care level is a program that enables our residents to customize their lifestyle, putting the needs and preferences of your loved one first.

### Memory Care

We are committed to ensuring your loved one’s care by providing a stimulating yet homelike environment for some of the millions of seniors battling progressive dementia and Alzheimer’s disease. Stonehaven Assisted Living pays personal attention to each resident, including developing programs designed to suit individual needs. Our programs are developed by highly experienced, trained staff members who will treat your loved one as an extension of their own family.

## OVERVIEW

Stonehaven Assisted Living is a Level II community located in Central Arkansas—tucked into a beautiful wooded area filled with nature’s beauty and wildlife for residents to enjoy. We provide our residents with the independence they need within a caring, relaxed and comforting home environment supported by a 24-hour licensed nursing staff. Our approach to care is highly personal, starting with listening carefully to understanding each resident’s healthcare needs along with their personal interests. This approach enables us to prepare a customized care program to ensure the best possible experience within our community.

**Arkansas Assisted Living License 425**

## FEATURES

### Stonehaven Assisted Living

Stonehaven’s service and care levels are designed with the dignity of the residents in mind and with the goal of maintaining independence for as long as possible. Each resident is carefully and thoughtfully assessed during the application process to determine the most appropriate level of care. Additionally, there are regularly scheduled evaluations to ensure each resident is receiving the most appropriate care.
