

STATEMENT ON COVID-19

The well-being of our patients, residents, and employees at Cornerstone Healthcare Group continues to be a top priority for our organization. As the COVID-19 outbreak continues to evolve, Cornerstone is following all guidelines set forth by the CDC and CMS.

In following these guidelines, Cornerstone Healthcare Group has educated employees on COVID-19 by compiling a COVID-19 toolkit with pertinent information on the spread, prevention, and control of this virus. Cornerstone is working with patients, residents, and families to inform them of the virus, prevention techniques, and the latest rules and regulations.

Across all service lines, Cornerstone is screening all visitors for exposure or symptoms via telephone or in person at the time of arrival to a facility.

Cornerstone Healthcare Group is committed to stand together with our partners and our community to make a difference in the fight against COVID-19.

This information is up-to-date as of 3/17/20. We encourage you to follow the latest on COVID-19 by visiting [cdc.gov](https://www.cdc.gov) or by contacting your local facilities for the most up-to-date protocols/information.
